# Empower Your Business

## Specification

Whole vehicle main dimensions			Weight data																																																																																												
Chassis overall dimensions (LxWxH) mm		5455*1970* 2110	Gross vehicle weight (kg)		4495																																																																																										
Flat Cargo Box Internal Dimension (LxWxH) mm		3700x1870x400	Chassis Curb weight (kg)		1730																																																																																										
Cabin Type		1730 Single Row	Load weight (kg)		2765																																																																																										
L or R hand drive		RHD	Persons in cab		3																																																																																										
Wheel base (mm)		2900																																																																																													
Power																																																																																															
Engine	Model	4F20T28	Clutch	275mm diaphragm spring clutch																																																																																											
	Fuel type	Diesel	Max.speed (km/h)	≤ 110																																																																																											
	Displacement (L)	1.968	Largest degree of climbing (1st gear)	≥ 30																																																																																											
	Max. Power (Kw-)	92kw(125Ps/3200rpm)																																																																																													
	Max.	320Nm/1400~2600rpm	Cruise	•																																																																																											
Exhaust emission	EURO III	EP Switch	Efficiency & Power 2	x																																																																																											
Transmission	Model	ZF5S368	Electrical power supply	12V	•																																																																																										
	Technology type	MT		24V	x																																																																																										
	Torque	360																																																																																													
	Speed ratio	I:5.762 II:2.922 III:1.638 IV:1.000 V:0.782 R:5.149																																																																																													
Chassis			Body and Interior																																																																																												
Axle	Front	Type	Whole 1 Type																																																																																												
		Tonnage	1.8T																																																																																												
	Rear	Type	Punch welding single stage reduction drive axle																																																																																												
		Tonnage	2.7T																																																																																												
Suspension System	Font	Type	Non-independent suspension vertical leaf spring																																																																																												
		Spring	3																																																																																												
		Stabilizer bar	x																																																																																												
	Rear	Type	Non-independent suspension vertical leaf spring																																																																																												
		Spring	3+1																																																																																												
Stabilizer bar	x																																																																																														
Steering system	Multifunction steering	•																																																																																													
	Steering wheel	•																																																																																													
	Steering System	Recirculating ball																																																																																													
	Power Steering	•																																																																																													
Oil supply System	Fuel tank material	Plastic																																																																																													
	Fuel tank volume	70L																																																																																													
Tyre	Type	195/75R16																																																																																													
	Number	6+1																																																																																													
	Inner tube	x																																																																																													
Brake System	Brake type	Hydraulic																																																																																													
	front	Disc																																																																																													
	Rear	Drum																																																																																													
	Parking brake	Central drum Brake																																																																																													
	Auxiliary brake	X																																																																																													
	Safety Device	ABS	•																																																																																												
EBD		•																																																																																													
Air-condition	Single Heating (=warm)		•																																																																																												
	Warm and cold (=warm)		•																																																																																												
	light	Daylight	•																																																																																												
		Autolight	•																																																																																												
Back_up warning buzze		•																																																																																													
Back_up camera		•																																																																																													
Instrumental pedal	3.5 inch normal		•																																																																																												
	7 inch color screen		•																																																																																												
Media equipment	MP3+Bluetooth		•																																																																																												
	9 inches MP5%+ reverse		•
